New Class Starts June 18, 2021

Please note that all classes are subject to change due to demand and participation. For your safety, it is recommended you consult your physician prior to starting any exercise program.

Due to social distancing guidelines, Group Fitness Classes have limited spots available. Please book your spots using the new YMCA Member App. Need help with our new app? Contact Rebecca Richardville at: marketing@vincennesymca.org Download the new app at our website: www.vincennesymca.org

Class Descriptions

Core Focus - This class focuses on your core utilizing cardio and strength moves. No more hours of endless crunches to get your midsection in shape. Core strength helps with balance and stability and is beneficial for your overall health and wellbeing.

Crunch and Punch - Work your core and enhance your strength with this circuit training class taught by Tom Blakeslee.

Cycle45 - Enjoy an indoor, non-impact, cardiovascular workout that strengthens and tones the lower body. Participants journey across fast flat roads, rolling hills and slow climbs.

EnhanceFitness - EnhanceFitness is a proven senior fitness and arthritis management program that improves your endurance, strength, and flexibility.

FAITHIT - Working out the body while working in the Word of God! This class is a fusion of aerobic cardio, interval- based exercises and strength conditioning, providing a full total body workout.

HiiT - Interval training with short intervals of maximum intensity exercise separated by longer intervals of low to moderate intensity exercise.

RevBell: A new, fun, unique fitness class for all fitness levels that takes the best kettlebell moves and choreographs them to music. Each song is a full body workout, but will focus more on either arms, legs, cardio, or core.

Rock Steady - Non-contact boxing inspired classes can reverse, reduce and even delay the symptoms of Parkinson's Disease. Evaluation must be completed before beginning the class.

Silver Strength - This circuit class, created for men 50 and older, targets all the major muscle groups by combining cardio, strength training, balance, flexibility and functional movement.

Strength Train Together - STRENGTH TRAIN TOGETHER will blast all your muscles with a high-rep weight training workout. Using an adjustable barbell, weight plates and body weight, this workout combines squats, lunges, presses and curls, with functional integrated exercises.

Yoga Stretch - Move your whole body through a complete series of seated and standing yoga poses. Chair support is offered to safely perform a variety of postures.
